For the Mystical Journey with Christ
September 2010

What a Blessed Silent Retreat on August 14-15!

This was a day to honor the Great Ones who bless and serve the Christ through Questhaven. We came in silence to open our inner senses to Their wondrous reality and blessings. Those who entered the garden next to Chapelito were greeted with these words from one of the

It is very needful that this shining reality of the Angels, mentioned in all of the great religious books of earth, should be known to us, and not only known, but especially appreciated and loved.

Michaelmas Retreat 2010 Guardian Angels: Our Loving Companions September 24-26

By Jean Michalewicz

In September we have the wonderful opportunity to celebrate Michaelmas, Feast of the Angels. Reverend Flower A. Newhouse explained that Angels are responsible for the divinization of all life forms on Earth. There are many orders and ranks of Angels, but the order we are most familiar with is that of the Guardian Angel.

These loving beings are "extremely advanced, much more so than most persons realize. They are doing what would be equivalent to an arhat or a fourth degree initiate's work in our dimension." The work Guardians do for human beings is "selfless, patient and filled with everlasting self-sacrifice...In our waking hours, our Guardian Angels are never out of telepathic touch with us. She stands in the right hand side of our auras." Flower encouraged us to be grateful for and remember many

feminine Masters:

"In your higher bodies, my brothers and sisters, you observe each other with deepest and purest approval and with gratitude that your lives were linked. Let the realization which is true and active in the inner worlds, now become a part of your outer regard for all."
