

Inspiration

For the Mystical Journey with Christ

Sharings from the Silent Retreat on August 13:

"How profound an experience it was to sit in Chapelito for the first time. What a tremendous energy field surrounds one in that space!"

"To know that these Great Ones are sending us legions of Light awakens me to make more assured steps with Them."

"I realized how often I forget to call on God for the small things in my life."

"The most wonderful day of my life."

Behold, I send an Angel before thee, to keep thee in the way, and to bring thee into the place which I have prepared.

Angelic Help During Challenges

by Flower A. Newhouse
(adapted from a talk given in 7/1/10)

On Sunday mornings while sitting in the church I have sometimes observed a person who is undergoing a great challenge. I have watched to see which particular type of being would work with those individuals, or work upon them, to clear their auras and make them more transparent to the observation of higher intelligences. This is usually the work of a Guardian.

As the individual relaxes and prays for a specific urgent or serious need, we notice that an Angel of Prayer, still remaining in the upper portion of the nave, but outside of what would be the physical edifice of the church, is observant of that one. Soon a ray of glorious, moving, electric white Light is touching that person, changing the uppermost part of the aura of the individual. In other words, it is helping them in their higher bodies to feel the impact and become more open in those bodies, so the lower vehicles can likewise open and be receptive.

Once in a while an emblem or thought form goes up, showing what type of prayer the person is making. These glorious thought forms are very visible because they have such beauty and a shimmering aspect, even from the human that creates them. An Angel of Prayer will take that emblem, which has only gone a short distance, and within a few seconds, the thought form that had seemed perfect before becomes unutterably more lovely and rises higher and higher.

There is a ray of light from the Angel of Prayer; the path of light seems to be the means by which this thought form is taken beyond this particular Angel. We have followed these prayer forms into the *Field of Prayer*, sometimes known simply as the *Garden of Prayer*. In the Field of Prayer there is an even taller, more regal and majestic Angel with greater experience. This One watches and receives prayer forms from Angels working with groups, knowing that it is going to require someone with more Light to handle this particular need. The second Angel receives the thought form, which by now is much wider and taller—and gradually the whole thing disappears and you are back here, because that is as far as you can see.

We are told by those who know that the second Angel will keep surveillance over a number of challenging cases whose archetypes he or she is entrusted to watch, always adding to these growing archetypes the specific nutrient and quality that is necessary for the individual to feel in the physical world. It is that kind of help, you see, that we are constantly receiving. The more we know about what is taking place within, the more immediate and complete can be the help from these greater Angels.
